Biography of keynote speaker Emerita Professor Billie Giles-Corti

Billie Giles-Corti is a Professor Emerita at RMIT University. For over two decades, she and a multi-disciplinary research team have studied the impact of the built environment on health and wellbeing. From 2017-2022, she led the Healthy Liveable Cities Lab in RMIT's Centre for Urban Research; and between 2014-2020 led an NHMRC Centre of Research Excellence in Healthy Liveable Communities. She has been a Technical Advisor of the Victorian Office of the Government Architect's Design Review Panel, a member of the Victorian Planning Authority's Precinct Structure Plan Review Committee, and a member of Melbourne Water's Liveability Panel. She is Fulbright Scholar, and an Honorary Fellow of the Planning Institute of Australia and Fellow of the Public Health Association. She has published

over 400 articles, book chapters and reports, and by citations, has been ranked in the top 1% of researchers in her field globally. She was an NHMRC Research Fellow from 2003-2020, and in 2015, won its Elizabeth Blackburn Fellowship-Public Health.

A leading public health researcher in Australia who is recognised internationally for her research, Billie has worked on research projects across Australia as well as in Canada and the UK, including an evaluation of the impact of relocating low-income families into social and affordable housing in the athletes' village as part of the 2012 London Olympic Legacy.

Billie will be sharing her knowledge on 'Locational Disadvantage' with us at the CPHCE Annual Forum 2024.
